Strikers' Pickets, After Night of Rioting, Stop Street Car to Make Steel Employees Give an Account

Constabulary Fires Point Blank Into Mob at Close Range.

Fifty of Them Are Seriously Hurt—Trouble Was Frequent.

Pittsburgh, July 16.—Two street cars, carrying employees of the Pressed Steel Car company, were held up this morning by strikers. The men were forced to give an account of themselves. All were office employees. Strikers are keeping a strict watch on an island viaduct leading to the plant. Officers, guarding the plant, are ordered to "shoot to kill if the men reach for the guns." A bloody battle is expected.

Last Night's Trouble.

At 2 p. m. last night fifty mounted members of the state constabulary had a bitter fight with a mob of 10,000 people. Trooper Elmer Jertsen is in the Ohio Valley hospital and it is estimated that fifty of the mob were badly injured by the troopers. Jertsen was knocked from his horse by a thrown rock and his horse stung him, fell and rolled on him. It is thought his injuries are not fatal.

The strikers had gathered in a large army near troopers' barracks, and began stoning them, and when the horsemen, fifty strong, began to ride them down, the strikers, safe behind piles of ties and other refuse, pelted them unmercifully with stones. The troopers fired several times with blank cartridges, then finally loaded with ball cartridges and fired one volley which is said to have injured many.

Pel Soldiers With Stones.
Following a day of fierce rioting and bloodshed, the closing in of night brought no apparent relief to the situation at McKee's Rocks, where more than 5,000 employees of the Pressed Steel Car company are on strike. In fact the events of the day have brought the officials to a realization of the fact that they are face to face with a situation which may prove equal to that of the famous Homestead riots of 1892.

With the coming of night a mob of fully 10,000 men and women began gathering around the plant of the car company, and in the fight that followed with the state constabulary two of the strike sympathizers were shot and are in a serious condition. By 9 o'clock the vicious mob spirit had become rampant and cursing men stormed the gate of the great plant.

Women Aid Strikers.
The soldiers fired several volleys of blank cartridges. A volley of bullets was driven home into the heart of the mob, with the result that more than a half hundred were injured. The first trouble of the day of any magnitude took place at noon time. The foreigners resented the presence of the state troops as soon as the strikers there were occasional outbursts, but none of any seriousness.

But when the 5,000 strikers were dispersing from Phoenix park, where they had held a series of demonstration meetings, trouble started at Donover's bridge, which is located about a quarter of a mile from the works. Seven hundred men and women at his point became demonstrative and took of the state constabulary interfered. Instantly the crowd swelled to thousands, jeering and hooting the presence of the state officers. The members of the state constabulary drew their clubs and were greeted by a volley of rocks, sticks and chunks of iron.

Drive Horses Into Crowd.
Sergeant Fred Frash was knocked from his horse, having been struck on the chin by a rock. He remounted, drew his revolver and fired over the heads of the mob. His companions did the same. By this method and driving their horses straight into the ranks of the disturbers, the latter retreated suitably and definitely. It took a volley of lead fired straight into their midst to disperse them.

Angry Mob on Street.
At other times when the officers attempted to arrest a man several women would block their way and, getting between the men and the police, spit the men out of the way.

Through the streets all day long surged the restless, angry mobs, also seeking only for the slightest hint to start their demonstrations. They reminded one for all the world of the description of Dickens in "Garnish Rudge" and "The Tale of Two Cities" of the great riots preceding the French revolution.

Sheriff Gaubert tried to find some person who might be in authority, in order to try arbitration, but the great mass was a headless affair.

THE BLACK HAND.

Chicago, July 16.—Secret Service operative Richey, who recently arrested Italian counterfeiters, this morning turned over to the postoffice department a letter from a black hand society, informing him he is worked for death. Richey lived with the Italians two years, working up the case. He exposed a number of black hand secrets.

New Orleans, July 16.—Lazarus Gebella was hanged today at Hudsonville, La. He was the leader of Italian desperadoes who kidnaped and murdered Walter Lomana, 8 years old, two years ago. The murderer's nerve gave way when the scaffold was erected. Two weeks ago he was taken by the sheriff and showed how laughing is conducted to prove it wouldn't hurt much.

Late last night he conferred with Gov. Stuart and more state troops will be hurried to the scene. In the midst of the trouble there was one tragic sidelight.

Several companies of the state constabulary were ordered to the section where the company houses are located to evict the striking elements. Their houses were more wooden hovels, but the women rallied around them and fought desperately to keep even this crude shelter over their heads.

Women Carry Torches.
A thousand of the women armed themselves with lighted torches and going out to meet the troops, threatened that if a single person was evicted nothing but heaps of ashes where once stood their humble homes when the morning came. There were no evictions.

The strike has brought hints of a gigantic scandal which friends of the foreigners are denouncing. It is claimed that before a man can get a job he must pay from \$10 to \$20 for it, and is not then immune, but will in a few weeks be discharged to make way for someone else who pays the price. Then the first unfortunate in order to get back must pay over again. At least \$10,000 a week is said to go to someone in this manner.

In addition to this, the men claim that since 1907 they have had to pool their money and each section pay from 25 cents to 40 cents an hour for their foremen, the company not paying the foreman.

Flagman Struck By Train.

Frank McCrue, a colored brakeman, was brought to the Illinois Central railroad hospital this morning from Nortonville suffering with several gashes on his head. McCrue was a flagman on freight train No. 152, and was flagging when he was struck by a train and knocked down. When brought to the hospital he was unconscious, although his condition is not considered serious.

Dr. Nuttall Removed.

Frankfort, Ky., July 16. (Special.)—State authorities admit that Dr. Nuttall, superintendent of the feeble-minded institute, was removed under charges, but decline to make them public. They are investigating.

Dr. Nuttall was formerly of Henry county. He is a Republican, and was appointed here when Dr. A. Bailey, Democrat, was retired.

Lock and Dam at Hale's Bar.

Washington, D. C., July 16.—Representative Moon got through the house today a bill extending to October 18, 1911, the time in which to complete the lock and dam at Hale's bar, in the Tennessee river below Chattanooga. The date for the completion of the work was October 18, of this year, but owing to much high water and other conditions over which the contractors had no control, it was impossible to comply with the conditions. Mr. Moon introduced the bill and had it passed without delay.

LaCrosse, Wis., July 16.—The Gliddenites left this morning for a day's run to Minneapolis. The route today crosses part of the flooded districts and it is expected a number of cars will find difficulty in keeping perfect scores.

HEALTH OFFICER TO PURSUE FLIES TO THEIR LAIRS

Powdered Poison Will be Sprinkled in Their Worst Breeding Places.

Pig Pen Owners Will be Prosecuted.

WEED CUTTING PROGRESSES.

Flies will be trailed to their lair in the horse stables by the city health department; and, although citizens have not bestirred themselves for protection against the common carriers of typhoid and other disease producing germs, Dr. Sights and his assistants will wage a war of extermination. A large quantity of death-dealing powder has been received and was unpacked this morning. This will be hauled around under Dr. Sights' direction and applied to some of the worst fly breeding stables in the city, in order that the number of flies may at least be reduced to a minimum before the cold nights of the late summer and early fall drive them into the houses, where they distribute their burdens of disease.

The street department is still engaged in exterminating weeds in alleys and on public property. Street Inspector Ernest Bell said it will be a week or ten days before the work is completed. Weeds are standing as high as a man's shoulder.

Must Move Pens.

County and city health officers are next to make war on the pig pens. These pens are dangerous, especially near the city, and these officers are preparing to issue warrants for a large number of persons, who refuse to obey orders. Within five days all pig pens are to be removed a half mile from the city limits.

MURDERER SURRENDERS.

Sends Word He Will Yield If Protected From Mob.

Hopkinsville, Ky., July 16.—R. B. Morgan, the negro who shot and killed James Morris, white, last Saturday, surrendered to the authorities last night. He sent word soon after dark by another negro that he was ready to surrender if given sufficient protection to insure him against mob violence. This was agreed to. A posse was sent out and to this posse Morgan surrendered and was lodged in jail. Two brothers of the dead man had learned of the arrest and appeared at the jail fully armed, seeking an opportunity to shoot the negro, but they were disarmed. The jail is being heavily guarded to prevent any possible attempt at mob violence.

Hippo Meets Terrible Ted

Nalvasa, July 16.—Native runners from the camp today say Theodore Roosevelt last night practically alone encountered a bull hippopotamus. He was in a launch with two natives. He was close to shore when the hippopotamus came crashing towards the lake. Roosevelt gave the wheel to the natives and fired three shots, all of which took effect and the third killed the beast.

JOHN SMITH MEETS DEATH IN ST. LOUIS BY SOME ACCIDENT

Word was received last night by Mr. Charles Smith, the well known butcher, 129 Farley place, that his grandson, John Smith, 14 years old, was accidentally killed in St. Louis yesterday by a train. Details of the boy's death have not been learned, but the body will arrive in Paducah tomorrow morning at 7:30 o'clock from St. Louis. The burial will follow at Oak Grove cemetery, the Rev. William Bonquin officiating at the cemetery. Until about a year ago the boy with his mother resided in Paducah, but removed to St. Louis. His father, John Smith, was a former market master, but died before the family removed from the city. Besides his mother, the boy is survived by three brothers: Charles, Gilbert and Wallace and one sister, Annrena.

WEATHER.

Generally fair weather, with moderate temperature tonight and Saturday. Highest temperature yesterday, 93; lowest today, 74.

Bids Opened For Custom House.

President Taft Gives Little Satisfaction to Urgent High Tariff Advocates From 23 Districts.

Washington, July 16.—Bids were opened at the treasury department for the construction of the executive public building at Paducah, Ky. The bidders were as follows: B. T. Davis of Paducah, \$15,519; Interstate Construction company, Saginaw, Mich., \$15,400; George Moore & Son, Nashville, \$14,561; H. C. Bishop, Chicago, \$13,455.

Taft Stands Pat.

Washington, July 16.—Twenty-three Republican congressmen called on Taft today and begged him not to allow raw materials produced in their districts to be placed on the free list. Young, of Michigan, was the principal speaker and several others talked. The president did not give the callers much encouragement. He said if the material needed protection he would see that they get it.

A last effort has been made by the conferees to induce the president to consent to the striking out of the corporation tax amendment, without success. The president not only told Senator Aldrich and Chairman Payne that he would not withdraw from his position in favor of the tax, but he was assured of sufficient votes to keep the provision in the bill and to insure its adoption in both houses.

The president reiterated this position to several of his callers and is said to have told them that he had been absolutely confident from the first of the enactment of this tax into law.

Pains were taken at the white house to make it clear that President Taft did not send for Messrs. Aldrich and Payne on the occasion of their conference, despite the intimation given out in legislative circles that these two leaders had been summoned by Mr. Taft upon word reaching his ears that the corporation tax was about to be dashed to pieces on the rocks.

The conference, it was said at the white house, had been sought by the legislative leaders, who reported to their colleagues that Mr. Taft stood solidly for the tax and would not retreat from his aggressive position regarding it.

Business Man Goes to China.

Washington, July 16.—President Taft announced today he will appoint Chiles Crane, of Chicago, a manufacturer, minister to China. Crane expressed a willingness to take the place, China is now being communicated with to see if he is acceptable. Crane traveled extensively in foreign countries in connection with his business. Taft thinks he will be an excellent representative to China, where an effort is being made to extend business.

Will Depose Shah.

Vienna, July 16.—Diplomats are so certain the shah today say Theodore Roosevelt last night practically alone encountered a bull hippopotamus. He was in a launch with two natives. He was close to shore when the hippopotamus came crashing towards the lake. Roosevelt gave the wheel to the natives and fired three shots, all of which took effect and the third killed the beast.

Saylor Murder Case.

Watska, Ill., July 16.—Plans are being made for a special meeting of the grand jury next week to take up the Saylor killing. The prosecutor yesterday saw the private papers, which are now being carefully guarded, but it is intimated they will be used at the trial with startling effect.

Seeking Homesteads.

Missoula, Mont., July 16.—A half dozen excursion trains today arrived here, crowded with homesteaders, seeking to register for the Flathead Indian lands, about to be opened by the government. Six thousand registered yesterday and ten thousand arrived today.

Blacksmith in Peril.

Sharp, Ky., July 16. (Special.)—Evana Rudolph, a blacksmith, had a narrow escape from serious burns yesterday while repairing rubber tires. The gasoline tank on his machine exploded and his shop was filled with flames. Mr. Rudolph threw the machine out a window, and extinguished the flames alone in a few minutes with only a few dollars loss.

Madson's Wives Organize.

San Francisco, July 16.—Deserted wives and fiancées of John Madson, alias Johnson, today held a meeting and formed an association. They pooled their interests with the intention of getting back the property which they think the bigamist has secreted somewhere. They will hire an attorney in an effort to get the money. They are planning also to prosecute Madson on other bigamy charges after his release from his present seven-year sentence.

Republicans of County to Nominate Tomorrow

Republicans of McCracken county will meet in mass convention tomorrow afternoon at 1:30 o'clock at the court house to select a ticket. It is probable that a full county ticket will be nominated. County Chairman E. E. Bell will call the convention to order. More interest is taken in the county campaign than usual this year by the Republicans, who are hopeful of winning some, if not all the offices.

Mr. J. K. Bondurant this afternoon withdrew from the race for the Republican nomination for county clerk in the following statement:

I hereby withdraw my name as a

candidate before the Republican convention for the office of county clerk of McCracken county, Ky.

WELLES AND HOOKS WILL PLAY SUNDAY AFTERNOON.

The Hooks will play the Welles' Sunday afternoon at League park and a hot game is expected as both teams are made up of good material. Ladies will be admitted free. The batteries will be: Hinkle and McKee for the Hooks, and Council and Gallagher for the Welles.

JAILER BAKER IS STILL ON HUNT OF PRISON BREAKERS

Disappointed but still hopeful of recovering his prisoners, County Jailer James W. Baker returned last night from Clinton, where he went to identify four men, suspected of being fugitives from McCracken county. Mr. Baker said the men when described closely resembled the four brass thieves as far as height, weight and general features; but when he saw the men he realized in a minute that a mistake had been made. Not desiring to have the men picked up again by the police, Jailer Baker gave them a certificate, stating they are not the escaped prisoners. The men are hoboes and protested their innocence of any crime.

The men were discovered in a corn field and their actions were suspicious. The sheriff of Hickman county was out riding with his children when he saw the men. He took his children home and summoned assistance and returned to the field. Four men were taken in charge, but a fifth man escaped. They were not locked up in jail but were guarded during the night in the county court house.

Many clues as to the probable location of the jail birds are received at the jail every day. Every clue that seems reasonable is run down, but all have been fruitless. Jailer Baker is suffering with a severe cold as the result of riding in the night air looking for the prisoners.

THREE HUNDRED LIVES ARE LOST BY EARTHQUAKE

Athens, Greece, July 16.—Reports today from Ellis province, southern Greece, indicate heavy loss of life in yesterday's earthquake. Stragglers, who escaped to points where the telegraph and telephone are working, say the loss of life is startling. Many villages were wrecked and the inhabitants hurled in the wreckage of their homes. Survivors are dying from exposure. The government is planning to rush aid to the scene.

The latest report today from the earthquake puts the number of dead at 300.

Vanderbilt Assailed.

Lucerne, Switzerland, July 16.—An attempt to lynch Alfred Vanderbilt was made at Ussnacht, an Alpine village. He was driving a big touring car and stopped to ask the way. Passants were angry at the number of auto accidents and surrounded the car and tried to set it on fire. Vanderbilt leaped in the car and drove away. Passants showered stones on him. Several arrests have been made.

Shah Seeks Russia.

Teheran, July 16.—The shah took refuge in the Russian legation. The rebels gained possession of the city with the exception of the Cossacks, who are negotiating terms of surrender. It is generally believed the shah has accepted the Russian proposition, and Russian forces under General Snarsky are expected to reach Teheran soon.

Team Runs Away.

Smithland, Ky., July 16. (Special.)—A team hitched to a wagon and driven by James Dukes, three miles from Smithland, ran away this morning and threw Mr. Dukes and his daughter out. The young woman is said to be in a serious condition.

HILL'S LINES TO CONNECT AT PADUCAH

MANUFACTURERS' RECORD MAKES CERTAIN OF THE PLANS.

HAS LINE FROM MOBILE NORTH TO MIDDLETON, TENN.

In an editorial on the race of railroads to reach a gulf terminus, this week's Manufacturers' Record, speaks of the Hill lines move in the Herrin Southern. It quotes J. J. Hill as saying there are a sufficient number of roads through the south now, and accepts this as indicating his purpose to make an arrangement with the Louisville & Nashville system for connections at Paducah.

President Smith, of the L. & N., has been known to express himself as opposed to the entrance of other roads into Paducah. But already possessing lines that reach from Mobile to Middleton, Tenn., 150 south of Paducah, and a short distance directly south of Jackson, the Burlington, when it reaches here, will place the L. & N. in a position where it will have to accept the alternative of making an arrangement with the Burlington or suffer another competing line with shipping points all through the middle west and the great lakes to enter the field. It is not believed by the Manufacturers' Record that the L. & N. will do anything to encourage further competition.

By using the L. & N. system south from Paducah, the construction of a short line north from Middleton to Jackson will complete the Hill system from Chicago to Mobile.

Hill Going South.

The Manufacturers' Record says: Concerning the proposed construction of a line by the James J. Hill interests from Herrin to Metropolis, Ill., on the Ohio river, opposite Paducah, Ky., to which reference was made in the Manufacturers' Record last week, a report from New York says that the object of this new line, which is called the Herrin Southern, is to connect with the Louisville & Nashville railroad, and a bridge will be built over the Ohio river. This will enable the Hill roads, such as the Chicago, Burlington & Quincy, the Great Northern and others, to establish through traffic arrangements with points in the south not only on the Louisville & Nashville, it is said, but also on the Southern railway. It is intimated that the Louisville & Nashville may unite with the Burlington in paying for the construction of the bridge, which cost \$1,000,000. The 50 miles of road to be built in Illinois are estimated to cost \$2,000,000. It is also expected that about 100 earloads per day will be immediately added to the Burlington's traffic by this new route, and it would appear that Hill is closely following up Harrison in getting entrance to southern traffic territory.

While the connection with the Louisville & Nashville (if the foregoing report be correct, which seems reasonable) will doubtless result in immediate gain to both systems interested, it does not necessarily mean that the Burlington would not acquire a direct route south to the gulf from Paducah, which might be obtained, as previously reported, by building from that city to a connection with the Mobile, Jackson & Kansas City railroad at Middleton, Tenn. Yet it is said that people interested in the Burlington consider an arrangement with the Louisville & Nashville to be much more advantageous than direct ownership of one line in the south, because the Hill roads are thus enabled to handle traffic to and from all the many important points reached by the Louisville & Nashville railroad and by the Southern railway.

Concerning the extension from Herrin, Mr. Hill himself is reported as saying with reference to a gulf extension: "There are too many lines down that way now to make it worth while to build another."

Southern Connections.

In another article the Record says: "James J. Hill, as well as Edward H. Harriman, is now turning his attention toward getting traffic to and from the eastern section of the south. The incorporation of the Herrin Southern Railway in Illinois to build a line of about 50 miles from Herrin to Metropolis, on the Ohio river, opposite Paducah, Ky., has given rise to expectations that the Burlington system, some of whose officials are incorporators of this new road, will extend into Kentucky and make connections with lines to various important points in the southern states. The latest report in connection with this move is that a bridge will be erected

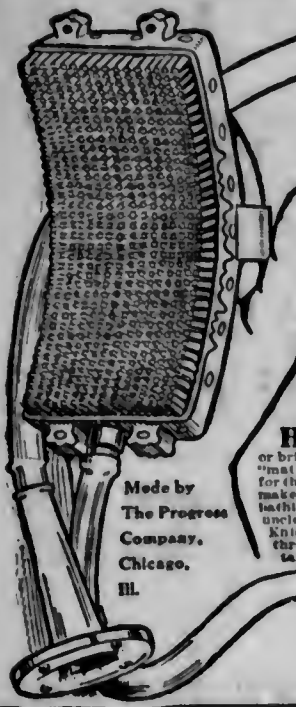

Jeff Promises to Cover

JACK JOHNSON'S BIG FORFEIT

Chicago, July 16.—Jeffries promises that tomorrow when he returns from Kansas City he will meet Johnson's ten thousand check and make it look like "thirty cents." It is expected a definite promise of a fight will be given.

Crowe Point, Ind., July 16.—It became known today that Jack Johnson narrowly escaped death in an auto accident at the Cobe cup course last night. The fighter was running his car around the course. He is said to have raced with a car carrying a Chicago party. He alighted suddenly when near here and the other car dashed into it and both were smashed. The wrecked cars were dragged here this morning. It is reported a girl from Chicago was severely injured.

MODERN HAIR DRESSING.

has played havoc with the tresses of the fair sex, and druggists everywhere comment on the fact that they are selling large quantities of sage for making the old-fashioned "sage tea," such as was used by our grandmothers for promoting the growth of their hair and restoring its natural color. The demand for this well-known herb for this purpose has been so great that one manufacturer has taken advantage of the fact, and has placed on the market an ideal "sage tea," containing sulphur, a valuable remedy for dandruff and scalp rashes and irritations. This preparation, which is called Wyeth's Sage and Sulphur, is sold by all leading druggists for 50 cents and \$1.00 a bottle, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price. For sale and recommended by V. J. Gilbert.

UNIONS TO WAR ON THE POLICE

CHICAGO WILL SEEK A BITTER STRUGGLE.

Recent Bomb Outrage Laid to Door of Business Agent of Carpenters' Guild Evidence Closely.

AND SPRING A SURPRISE

Chicago, July 16.—The holding of Vincent A. Altman, assistant business agent of the Carpenters' union, to the grand jury on the charge of placing the bomb which damaged the Central Telephone company's building in the downtown district on the night of June 27, caused a sensation.

Although Altman has been under arrest a week the strength of the police evidence against him has been carefully guarded. Altman's friends of the labor union freely predicted that it was a "bluff" and that he would be released. The action presages a bitter war between the unions and the police force—a war that already has opened.

The carpenters have put into the field a volunteer detective force and charges have been made that the police are afraid to arrest the real bomb thrower, who is said to be in possession of information that the police have protected gambling in this city for years.

States Attorney Wayman appeared in person to prosecute Altman before Judge McSurely. He was backed by acting Chief of Police Schuetzler, acting Assistant Chief Lavin, who is in charge of the case, and Captain O'Brien, of the detective bureau. Gustave Simons, an employee of the Telephone company, testified that on the night of June 27, he had occasion to go into the alley where the bomb was placed.

BASEBALL NEWS

Collins Goes Up.
Orth Collins, who trotted the diamond in the Killy league, has broken into the big leagues as he is now the property of the Washington team. By steady and consistent playing Collins worked his way up the ladder from the Killy to the Central, the Southern and then to Buffalo in the Eastern league, where he was playing until secured by the Washington team. Collins is a fine all around player, and fast base runner. At the time of his sale Collins was under suspension.

CONTEST RACE IS GETTING FASTER ALL THE TIME

Last Three Weeks Going to
Be Real Red Hot Ones for 2
Sure.

Rich Pickings Will be in
Country Districts.

BUSY TIME UNTIL THE END

Everywhere the contest man is asked the question, "How is the contest getting along?" There is only one answer for all: "Fine."

And that is just what it is doing—fine. The candidates are busy, the subscriptions are coming in in large numbers and everybody is happy.

Really the race is livelier and faster than anyone expected it to be at this stage. While more than three weeks yet to run, the interest of the general public in the standing of candidates is already as keen as in usual during the last week of a contest.

The last three weeks are going to be red-hot ones. There is no longer any doubt of this. Candidates are going to work as they have never worked before and the entire contest department expects to be busy issuing pink slips in exchange for start slips. The leaders are counting their strength and estimating the strength of their opponents. The next three weeks will decide who is going to win the better places, and the ambitious candidates are going to leave no stones unturned.

In the country districts candidates are going to find their richest pickings during the remainder of the contest. This is about over and the suburban and heavily farmers have the time to talk and the inclination to subscribe. A great many of the subscriptions turned in from now on will be from the farms. The cities and towns will give their share, but the country will do more.

It's going to be a busy time, indeed, from now until the end, and no one realizes this more than the candidates. They must work and see that the interest of their friends in their race does not lag. One of the best ways to do this is to change their scores every day. Persons interested in a candidate grow disheartened when his or her score remains the same from day to day. A satisfactory score gives the impression that the candidate is not working—has possibly dropped out of the race.

You don't want your friends to think that you have dropped out of the race. Send in your pink slips and keep your score gradually rising. (Standing of contestants at noon, July 15.)

PARIS DOCTOR'S DISCOVERY

Dandruff, Falling Hair are Caused
by a Microbe—Dr. Sabouraud Proves It.

Dr. Sabouraud is the leading dermatologist of France. He has claimed for years that dandruff was caused by a germ or microbe and that these germs also caused baldness.

To prove that this theory was right he infected a guinea pig with these microbes and in a short time the hair from the animal's body completely disappeared.

Intelligent doctors and scientists the world over have accepted Dr. Sabouraud's theory as correct and in treating diseases of the hair and scalp they endeavor first of all to kill the dandruff germ.

It is an acknowledged fact that Paris is away ahead of the world in knowledge of diseases of the hair and the remedies for the same.

And Parisian Sage, which can now be obtained in America has an immense sale and is highly recommended by physicians in all parts of the world.

It is just because it is the only prescription or hair tonic that is absolutely sure to kill the dandruff germ.

W. J. Gilbert is the distributor for Parisian Sage in this city and he is so sure of its wonderful and quick acting virtue that he guarantees it to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

In warm weather it keeps the scalp clean and cool and free from obnoxious odors. And ladies should remember that Parisian Sage is more than a germ killer; it is a pleasant and dainty hair dressing that will put a bewitching charm and luster into faded and lifeless hair in one week. It is distressing for any woman to have dull, unattractive hair and women so unfortunate should use Parisian Sage.

Parisian Sage costs 50 cents a large bottle at Gilbert's and is sold by leading druggists everywhere. The girl with the Auburn hair is on every bottle. Made in America by Green Mrs. Co., Buffalo, N. Y.

A VEGETARIAN DIET

Apart from any other question, is it any wonder that so many people exclude meat from Faust Brand Spaghetti, considering how well it harmonizes with out producing that uncomfortable "after-dinner" feeling without over-heating the body, and at a cost that seems a mere nothing when compared with the price of meat.

Any day—every day—once a day or twice a day—for grown folks and growing folks—indoor people and outdoor people—strong digestion and weak digestion—brain workers and body workers—there's no other one food that begins to be like Faust Brand Spaghetti. And how indescribably good it is! This time as steaming brown baked spaghetti, next time with eggs, today as a side dish, tomorrow as the principal dish—always right always appetizing—getting the food to the table on time and causing them to linger behind hoping for more.

Only five and ten cents a package. All grocers. Write for free book of recipes.

Standing Room Only.

One of the wives of a Mormon coming down stairs one morning met the physician who was attending her husband.

"Is he very ill?" she asked; anxiously.

"He is," replied the physician. "I fear the end is not far off."

"Do you think," she asked, "I should be at his bedside during his last moments?"

"Yes, but I advise you to hurry. The best places are already being taken."

GREEN TAG SALE

THE immense business which we have been enjoying during these, the first two days of our Semi-Annual Green Tag Sale, really gave us a shock of pleased surprise.

WE knew that the values offered were unique in their attractiveness, but that the PUBLIC would also realize it SO QUICKLY was more than we expected.

The fact remains, however, that sales have so far outdistanced last year, that those figures are useless even for comparison.

It's not HOW LITTLE YOU PAY, but HOW MUCH YOU GET, that counts in a Bargain Sale."

THE COUNTY CAMPAIGN.

It is significant that the Socialists

should find it convenient to nominate

candidates for certain county and city

offices at this time. McCracken

county has always been considered

their peculiar political beliefs, are men; the candidates on the Democratic ticket are men, and the candidates on the Republican ticket will be men. The remainder of us are men and women, living under the same flag, in the same community and possessed of the same love of country and desire for its betterment. Therefore, let us vote as men, who have property interests and our own welfare at stake, and not like a lot of contract emigrants.

The Republican party will nominate county candidates tomorrow. The party, in so far as it represents a certain proportion of citizenship, is under obligation to the citizens to nominate a complete ticket, not omitting a single office; that the voters may have an opportunity to pick their choice from a number presented on election day. Particularly is it incumbent on that party to present a complete ticket to the county this year.

There is dissatisfaction with existing conditions, and it is a question, whether the nominations at the Democratic primary last election day entirely meet the demand for reforms. The people must have an opportunity to express themselves on that point next November; but they will not have the opportunity unless the Republicans offer them an alternative.

One need not look far below the surface of conditions at the court house to appreciate the fact that something is "rotten in Denmark." The county jail contains the county clerk, alleged to have been stealing money from the county for ten years. That he should have done this undisturbed, his papers being checked over and approved by the fiscal court every month, 120 times during that period, indicates that while he may have been criminally culpable, a dozen other officials were guilty of worse than negligence. The discovery of his alleged peculations is due to a change in the state administration. State Auditor's Agent "Will" Husbands found them out.

Whether any other than William Smedley has been guilty of taking the hard earned money of the overburdened taxpayers, who can tell? Smedley says yes; but the grand jury's time was not extended to investigate his charges, nor have we any knowledge of special instructions being given the grand jury to probe the charge, or of any zealous effort on the part of the county's legal officers to get at the bottom of it.

For proof that the county institutions are in a sad condition, we need only turn to the official report of an inspector sent here by the state board of health and the state federation of women's clubs. Instead of improving the conditions in the almshouse, erected at the expense of the taxpayers, the fiscal court adopted resolutions, condemning the one who inspected the place.

A condemned murderer committed suicide in the county jail. No one, excepting those in whose bosoms the knowledge is locked up, knows who gave the man the poison. No one, excepting these, will ever know.

At noontide thirteen prisoners, including a murderer, escaped from the county jail by cutting their way out.

For the good of the service, for the sake of economy, in the interest of law and order and decency and humanity, the public is entitled to a complete probing of conditions. Does the ticket presented by the Democratic party offer a chance for reform? Or must the county organization, which was the dominating force at the Second district senatorial convention, be put out for a season, in order to inaugurate a complete housecleaning? That is a question the voter must consider between this time and the election date. He will have to decide that for himself.

Certainly, we know we do not want a drunkard, gambler or drug fiend, in office any more; because such habits tempt men to steal. Certainly, we don't want a man in office, who already has been blind to corruption golang on around him in the court house. Certainly, we don't want in office anyone under political or any other sort of obligation to the machine, which has been responsible for crimes already committed in the court house.

The money of tax payers was used to erect the finest almshouse buildings in the state. So far so good; but it was extravagant to spend so much with the contractors, and then not manage the almshouse properly. The interest on the county funds has gradually been reduced a fraction of a per cent at a time. The taxpayers work hard for that money, and it should be made to work hard for them.

Taxpayers must consider all these things, and ask themselves whether they think they are getting their money's worth from the county Democratic organization. If not, then they must ask themselves further, whether the Democratic ticket presented to them, spells reform or a continuation of conditions. If they think it is sufficient to remedy the situation, they will be justified in supporting it. If they regard it otherwise, they will not be good citizens, if they support it.

SOME STORIES AROUND TOWN

Whether it is due to the prohibition wave in Tennessee or the waves of preparation that rolls off of Paducah is it nevertheless true that there has been a remarkable increase of soda fountains in Paducah this summer. Between Seventh street and the river on Broadway there are

eleven fountains at any of which the thirsty one may secure anything from a stiff up to fancy drinks with names like the Japanese. These are exclusive of the many places in the city where bottled drinks are sold. All of the fountains are doing good business, and the soda water jerkers are kept on the hop supplying the demand for the cooling beverages. This summer there are four more fountains than there were last summer, and if business continues good other merchants may install the fountains next summer and cater to the summer trade.

The price of corn meal is now blamed for the escape of the prisoners from the county jail. Since the jail delivery Jailer Enker has been the victim of the puns of his friends, and yesterday the jailer came back on one joker. "Well, corn meal got so high," he said, "and the fact that several of the prisoners wanted to spend a month in Michigan, made me sorry for them and I let them out. Court will not convene until September, and by then they will return from their summer homes, and be ready to stand trial." The joker did not say anything more.

THE REV. E. H. CUNNINGHAM ACCEPTS NEW PASTORATE.

The Rev. E. H. Cunningham has accepted a call to the pastorate of the Baptist church at Mount City, Ill., and will assume charge of the pulpit July 25. He has been conducting revivals and doing mission work in southern Illinois under the direction of the state mission board of Illinois, but has resigned to accept the pastorate of the church. The Rev. Mr. Cunningham formerly was pastor of the Second Baptist church in Paducah and is a young minister of ability. He has devoted several years to mission work and was in charge of the mission work in Kentucky until he went to Illinois. At present he is visiting his mother, Mrs. A. G. Cunningham, 626 North Sixth street.

Noble Rule of Life.

To live content with small means; to seek elegance rather than luxury; refinement rather than fashion; to be worthy, not respectable; and wealthy, not rich; to listen to stars and birds, babes and sages, with open heart; to study hard; to think quietly, act frankly, talk gently, await occasions, hurry never; in a word, to let the spiritual unbidden and unconscious grow up through the common—this is my symphony.—W. H. Channing.

WEST KENTUCKY COAL COMPANY

Still Further Enlarges Its Operations in Paducah.

A great industry has grown up so quietly in Paducah that the majority of the people are unacquainted with the magnitude of the operations being carried on.

The West Kentucky Coal company operating the famous Tradewater mines, has been perfecting its plans for several years and is now to be considered one of the great coal-carrying companies on the river. It has successfully demonstrated the superior quality of the Tradewater coal in the south, and to meet the demand in that territory, has installed and has in operation a plant for the building of barges. This plant employs 150 men, all citizens of Paducah; it also maintains a floating dry dock employing 50 more men; it also has in operation the steamers Harth, Mary Anderson, Harvester, Reaper and Egan. These boats are maintained at Paducah and their crews are composed of Paducah men. The stores consumed are purchased here and the repairs are made by Paducah firms.

At present they disburse weekly in this city a sum in excess of \$10,000, and as their business is growing rapidly this amount should be largely increased. It would seem that this company should receive the loyal support of the citizens of Paducah.

Paducah is essentially a river town and its prosperity depends very largely upon the volume of water borne trade. All the money paid in river freight is immediately returned to the city in wages to crews, repairs to old equipment and building of new.

This company will re-open its elevator at the foot of Ohio street on Monday next, where freshly mined coal can be secured at any time and in any quantity. It is to be hoped that the citizens will give this company the support it so well deserves.

The Peters Lee leaves Cincinnati this evening on her trip to Memphis.

She will arrive here Monday morning.

Fred McCandless went this week to Marietta, O., where he will remain until the new steamer, under construction for the Golconda-Paducah trade, is finished.

Messrs. McCandless & Keubler had hoped to have the new boat here by this time, but failed. She is expected about the 20th inst., however, and the nearer the time comes the more anxious the "boys" are to have her, as the Royal is too small to handle their trade.—Golconda (Ill.) Herald.

Capt. Jim Martin, of Pittsburgh, is in the city. He took the Harth to Hickman yesterday.

Official Forecasts.

The Ohio at Paducah, will continue rising at an increased rate for three days. At Calro will continue rising until Sunday Night or Monday and reach a maximum stage of 43 feet.

The Wabash at Mt. Carmel, will continue rising for 12 hours reaching a stage of slightly more than 15.5 feet, then fall slowly.

The Tennessee from Florence to below Johnsonville, will fall for several days.

The Mississippi at Chester, will rise for 36 hours, reaching a stage of about 31 feet, then fall. At Cape Girardeau will rise for 36 hours reaching a stage of 34 to 34.5 feet, then begin to fall slowly.

I. C. EMPLOYEES

MUST STAND PHYSICAL EXAMINATION.

Conductors, Flagmen, Engineers and Engine Foremen Before the Physicians.

In compliance with orders sent out from Chicago all trainmen of the Illinois Central railroad, including conductors, engineers, flagmen, firemen and engine foremen are to be re-examined on the rules and in addition will be required to stand a physical examination. On the Louisville division the physical examination has been under way for a week, while tomorrow the examination on the rules will begin. It will take about two weeks to complete the work owing to the large number of men in each division.

The employees, who are to stand the examination, are required to fill out an application blank the same as those used by them when they began their services with the company. All employees, who accepted positions or were examined during the past two years, ending July 1, 1909, are not affected by this order and will not be required to be re-examined. The physical examination will be chiefly on seeing, colors and sound. The men on the Louisville division will stand the examination before Dr. D. G. Murrell and the local surgeons of the company.

The colored brakemen are not required to be examined, as it was not considered necessary. The employees do not have to pay for the physical examination, as they had to do on accepting their positions.

The examination on rules will be held in a coach at Eleventh street and Broadway. L. E. McCabe, assistant superintendent of the Louisville division, will be in charge of the tests.

To Presbyterians

All members of the First Presbyterian church are reminded of their individual responsibility in calling a pastor. It is a duty they owe their church to hear every minister who is invited here to preach. For the next three Sundays our pulpit will be filled by men of special note whom we have invited in the hope of securing a pastor. Sunday next Dr. J. Addison Smith, of Richmond, Ky., who in one of the most gifted pulpit orators, will preach morning and evening, the others will be announced in due season. Our members are urged to hear each one preach and a very cordial invitation is extended to the general public.—The Session.

STORM DEVILS

TWO VERY SEVERE ELECTRICAL
STORMS VISIT LOUISVILLE.

After Elements Had Ceased, A Chimney Had Been Struck and Mule Killed.

Louisville, Ky., July 16.—Mischievous rather than malignant were the devils who rode astraddle of and guided the multitudinous lightning bolts that played over Louisville during two severe electrical storms last night.

One bolt flopped down the chimney flue of a drug store at Twenty-second and Broadway and drove a stream of soot into the store as though an imp were playing a hose on the half dozen patrons in the place. All were painted, but beyond the shock to their vanity, escaped uninjured.

At the main power house of a company that supplies half of Louisville with light there was a crackle and half of Louisville was plunged into gloom. The engines and dynamos buzzed steadily on in the darkness for some minutes without furnishing a single ray, while frantic electricians applied every known test without finding any physical injury to the system. Then, suddenly, the lights flashed up again of their own volition and without assistance.

At one of the police department sub-stations a sergeant at the telephone had the receiver snatched from his grasp by a fat, blue bolt a foot long. He was only slightly shocked. One hundred yards away a mule in a stable yard gave forth a bray and died before its owner's eyes, although the latter avers not a spark played near the animal.

HILL'S LINES

(Continued from Page One.)

across the Ohio river and connections established with the Louisville and Nashville system for an interchange of traffic between that company's lines and the lines of Hill's system. Such a link would of course mean also connection through the Louisville and Nashville with the Atlantic Coast Line, which controls the Louisville road. The Nashville, Chattanooga & St. Louis, which is controlled by the Louisville & Nashville, would naturally be in the arrangement. It is further reported that Hill would make connection by this new route with the Southern railway, and that it is not his intention to connect up with an independent road to the Gulf. In this latter connection it has been suspected that he had his eyes on the Mobile, Jackson & Kansas City road, which extends from Mobile northwest and north to Midland, Tenn., which is about 150 miles south of Paducah.

This step by Mr. Hill, following quickly the latest developments of Mr. Harriman in connection with the Illinois Central and Central of Georgia lines, shows that the big railway men of the country are realizing that it is essential for them to either build into or acquire lines in the south east of the Mississippi. This section of our country is a great undeveloped part of it, and sooner or later the big railway systems must have facilities for handling its traffic. Harriman and Hill have taken time by the forelock and gone to work to quickly establish connection and affiliations with transportation systems already in existence therein.

That others will follow them is assured. Edwin Hawley has but recently acquired control of the Chesapeake & Ohio railway, and there are various speculations as to how he may extend it by connecting up with other roads or by actual reconstruction. This will afford an extensive system together with his other roads. The recent move of the Norfolk & Western in agreeing with the Atlantic Coast Line to build a connection will soon establish another direct through route between the Middle West and South Atlantic states. There is also a rumor that the Baltimore & Ohio may establish relations with the Seaboard Air Line.

"These things show what is doing and what has to be done. These men realize that they are compelled to enter the south, and it would be better for others who will likewise be compelled to get there to set about the work now instead of waiting for such time and condition as will make action compulsory, while by doing so now they can reap the advantages attainable by being early in the position to select the best routes for their purposes."

Notice to Contractors.

Bids will be received by the Board of Public Works at their office in the city hall at 3:30 p. m., on Tuesday, July 20, 1909, for grading and graveling of alley running from Broadway to Jefferson street between Twelfth and Thirteenth streets, and also for construction of concrete combined curb and gutter, all according to plans and specifications on file in the city engineer's office, under ordinance and resolution authorizing same.

Mr. Frank Cheek has returned to Chicago after a visit to his mother, Mrs. John Cheek, of North Fifth street.

Master Oscar Cheek, who has been ill with typhoid fever, is improving rapidly and is now out of danger.

Mrs. Hoot, Mrs. Hackell, Miss Garser and Miss Calahan, of Louisville, are the guests of Mrs. John Patton, 1201 Monroe street, and Mrs. John Michael, of 1215 Monroe street.

Miss Mabel Grief returned home after a visit in Memphis.

MEETING OF PRESIDENTS.

President Taft and President Diaz Plan Greetings.

Washington, July 16.—A meeting between President Taft and President Diaz, of Mexico, now being practically assured, the president and his cabinet are giving some attention to arrangements for carrying out such an unusual and notable event. President Taft has never met his executive neighbor, but long has cherished the hope of doing so.

Exchanges are in progress between the two executives, Mr. Taft, it was said today, taking the initiative in expressing a wish that the heads of the two great republics of North America might come together. Various details of the meeting now expected to take place at El Paso about the middle of October, are to be worked out carefully.

"Suggestions have been made that the two executives grasp each other's hands under a canopy erected midway of the international bridge at El Paso, or that they in turn visit either end and extend their well wishes at those places."

Insurance Hunders.

The way in which application forms for insurance are filed up are often more amusing than enlightening in the following excellent selections:

Mother died in infancy.

Father went to bed feeling well and next morning woke up dead.

Grandfather died suddenly at the age of 103. Up to this time he hid fair to reach a ripe old age.

Applicant does not know anything about maternal posterity except that they died at an advanced age.

Applicant does not know cause of mother's death, but states that she fully recovered from her last illness.

Applicant has never been fatally sick.

Father died suddenly; nothing serious.

Applicant's brother, who was an infant, died when he was a mere child.

Grandfather died from a gunshot wound caused by an arrow shot by an Indian.

Applicant's fraternal parents died when he was a child.

Mother's last illness was caused from chronic rheumatism, but she was cured before death.—British Medical Journal.

He Is Not Leon Ling.

Shipman, Ill., July 16.—The man arrested here on suspicion of being Leon Ling, proves to be a white man named Basil Freed. Detective Forbes is on his way from New York after the prisoner. Authorities here at first were certain they had the man, but now admit their mistake.

NEWS OF COURTS

In Bankruptcy.

In the bankruptcy case of W. G. Birkley, of Trigg county, the trustee, has filed a petition for the sale of the real and personal property of the bankrupt, and has notified creditors that the hearing will be given July 26 before Referee E. W. Bagby.

The claim of W. A. Downs and a prior claim have been allowed by Referee E. W. Bagby in the bankruptcy case of J. S. Downs & company.

Deeds Filed.

Henry Diehl to Barbara M. Potter, property on South Third street, \$1 and other considerations.

In County Court.

The state liquor license of J. W. Eberle, 700 Tennessee street, was transferred to L. H. Ragan, 111 South Third street.

L. Rust qualified as guardian for Lealie Rust.

Suits Filed in Circuit Court.

Lou Hamilton filed suit against Will Berger for \$900 for services rendered in the rearing of his child, Hessa Berger. She alleges she has had the care and rearing of the child since July 25, 1903, and that her services are worth \$150 for each year.

The Western Kentucky Asylum for the Insane and F. P. James, state auditor, filed suit against Nancy Watson for \$750. It is alleged that Nancy Watson was declared a lunatic December 19, 1885, and was taken to the Western Kentucky asylum, where she received treatment until July 14, 1909. It is alleged she has an estate of several hundred dollars value, and the suit is for the purpose of having it sold to remunerate the state for the expense of keeping her. The total amount due the state for caring for her is alleged to be \$3,525; but owing to the limitation by statute only \$750 can be collected. The circuit court is asked to have the estate of the woman sold, and the proceeds used to pay the bill.

Substance of Recent Treaty With England Is Made Public.

Washington, July 16.—The state department made public the substance of the Anglo-Siamese treaty, which was recently signed by representatives of the two governments at Bangkok, and has been ratified by both countries. By the terms of the convention, Great Britain agreed to give Siam partial release from extra territorial obligations on condition that Siam give certain guarantees of improved courts for British subjects and right of property and travel.

As a business transaction Siam has given over to Great Britain some 15,000 miles of territory. Coincidental with the ratification of the treaty, Siam agrees to build that portion of a railway to connect Singapore and Bangkok, which shall lie within Siamese territory, on condition that Great Britain give to Siam a free hand in the so-called sphere of British influence, make to her a loan of money to be used in the railway, and pay to Siam the sum owed to her by the provinces which are taken over by Great Britain.

CONVENTION FOR AUGUST 28.

Fourth Judicial District Democrats Will Name Candidates.

Madisonville, Ky., July 16.—Following a meeting of the Fourth Judicial District Democratic committee, Chairman John B. Brasher, of this city, has issued a call for a nominating convention to be held at Princeton August 28 to name candidates for judge and commonwealth's attorney. If there are no opponents to the announced candidates for the nomination, Judge J. F. Gordon and Commonwealth's Attorney J. F. Gray, who are the incumbents, a meeting of the committee will be held August 14 and these candidates declared the nominees.

Seven Killed in Collapse.

Philadelphia, July 16.—In one of the heaviest sections of the city and at a time when thousands of pedestrians were passing, a five-story building at the corner of Eleventh and Market streets, being reconstructed for the United Gas company, collapsed early yesterday afternoon, burying or pining beneath the ruins 32 persons, seven of whom are dead, one missing, one fatally injured and twenty-four more or less seriously injured.

The dead are: CHARLES LARSEN, PETER FRITZ, PAUL MANNING, ALFRED DAVIS, SIGMUND LANDSBERG, ALVIN.

AN UNKNOWN MAN.

Fatally injured: James Haggerty. Those killed were employed by contractors.

Regarding Titles.

"When you're in doubt about a man's title," said Gen. Jared A. Smith, U. S. A., "then whom there is no better authority on the subject of military courtesy, 'try him with a title higher than you think he is entitled to. If you overshoot the mark he will invariably correct you; but no matter how often you mislead him by failing to extend to him the courtesy of the title which is his own he will never fail to answer, thus offsetting your bad manners by his politeness."

"Remember, that it's the height of bad manners to call your medical friends 'Doc' or even 'Doctor,' unless you add the name to the title."

A Bonanza.
A certain man had a disastrous ex-
perience in gold mine speculations.
One day a number of collectors were
discussing the subject of speculation
when one of them said to this specu-

MAN MURDERED FOR HIS MONEY

BODY FOUND ON SMALL ISLAND
—DEATH BY DROWNING.

Struck on Head Then Held Under
Water—Murdered—Committed
Suicide by Poison.

ANOTHER MAN IS NOW IN JAIL

Port Huron, Mich., July 16.—
Louis Rosenberg, a cigarmaker, of
Cleveland, O., was murdered on an
island in the St. Clair flats just above
the Joe Bedore summer resort. A
few hours later Frank Elbera, also
of Cleveland, who is charged with
the murder, was also dead from a
dose of poison, self administered,
when he found arrest was imminent.
A third Cleveland man, Sam Frisbie,
is held in jail here as an accomplice
to the murder of Rosenberg and, it
is said, has made a confession.

The three men attended a dance at
Hedore's hotel and Rosenberg showed
in large sum of money. Rosenberg's
body was found lying face downward
in the bushes on the shore of an islet,
500 feet from the dance hall. There
was a deep gash in the back of the
head.

Officers were summoned from this
city. They found the dead man had
been stripped of every cent of money.
As the officers returned to the
hotel with the body they heard a man
inside scream, "I have taken dope,
help!" With a physician they rushed
to his side, but he died to a few mo-
ments. The man proved to be Frank
Elbera. His room was searched and
in a suit case it is said was found a
revolver, some bloody clothes and
nearly \$200. The officers then took
into custody his roommate, Sam Fris-
bie.

While the bodies of Rosenberg and
Elbera were being taken to Algona
Frisbie was hurried to jail here and
examined by Prosecutor Stewart.

Frisbie, according to the authori-
ties, said that during the dance El-
bera coaxed Rosenberg to go to the
island. Frisbie accompanied them.
At the head of the island, according
to the alleged confession, Elbera sud-
denly attacked Rosenberg. The cigar
maker ran toward the river. Elbera,
according to Frisbie, chased him into
the water, and struck him with a re-
volver and then forced his head un-
der the surface where he held him
until Rosenberg was drowned. Fris-
bie declared that his only part in the
murder was to assist Elbera to drag
Rosenberg's body into the bushes,
where it was found.

GAMBLERS

RETURN TO OLD HAUNTS IN NEW
YORK TOWN.

When Bingham Goes They Feel Free
to Resume Their Lost Occu-
pation.

New York, July 16.—Whether the
removal of Police Commissioner Bingham
was the result of a political plot
or merely a personal feeling against
him on the part of the mayor, and
whether or not it will result in mak-
ing the doctory army officer the anti-
Tammany candidate for the city
chief executive office at the coming
election, are questions that are still
being debated. One result of the up-
heaval in the city's police department
has become evident immediately.
That is the retrogression toward the
wide open conditions of other days.

Gamblers who had not been seen
in their accustomed haunts for many
months have suddenly appeared along
the Great White Way, coming from
no one knows where. Pool rooms and
gambling houses, the doors of which
have been tightly barred for a long
time, have resumed operations with
renewed an attempt at concealment.
Three card monte men and other
sharks of the "tin horn" variety have
piled their craft wherever crowds
have gathered. There is a general
air of cheerfulness and prosperity
among that part of the city's popula-
tion which thrives by the gentle art
of separating other people from their
money.

The new police commissioner de-
clines emphatically that there has been
any "lifting of the lid," but the fact
seems to be that the lid has been
pried up from underneath by the
gamblers and grafters who see a
chance for a harvest in the period
of demoralization that inevitably fol-
lows an overturn in the government
of the city's law enforcing machinery.
No matter how sincere the new po-
lice commanders may be in their de-
clarations, it is certain to take them
some time to "get wise" to all that
is going on in their departments, as was
the case with Bingham and his aides.
Meanwhile the element whose trade
is to defy the law are flocking from
all directions to profit by even a tem-
porary let up in the rule of stern re-
pression imposed on them by General
Bingham for the past three years.

At Falun, Sweden, are the head-
quarters of a mining company with
a history so remote that the date of
its origin cannot be definitely fixed.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's
Vegetable Compound

Paw Paw, Mich.—"I suffered terri-
bly from female ills, including inflam-
mation and congestion, for several
years. My doctor
said there was no
hope for me but an
operation. I began
taking Lydia E. Pinkham's Vegeta-
ble Compound, and
I can now say I am
a well woman."
EMMA DRAFER.

Another Operation Avoided.
Chicago, Ill.—"I want women to
know what that wonderful medicine,
Lydia E. Pinkham's Vegetable Com-
pound, has done for me. Two of the
best doctors in Chicago said I would
die if I did not have an operation, and
I never thought of seeing a well day
again. I had a small tumor and female
troubles so that I suffered day and
night. A friend recommended Lydia
E. Pinkham's Vegetable Compound,
and it made me a well woman."—Mrs.
ALICE SPELLING, 11 Langdon St.,
Chicago, Ill.

Lydia E. Pinkham's Vegetable Com-
pound, made from roots and herbs,
has proved to be the most successful
remedy for curing the worst forms of
female ills, including displacements,
inflammation, fibroid tumors, irregu-
larities, periodic pains, backache, bear-
ing-down feeling, flatulency, indiges-
tion, and nervous prostration. It costs
but a trifle to try it, and the result
has been worth millions to many
suffering women.

IN MARSHALL

REPUBLICANS NOMINATE A
COUNTY TICKET.

Meet at Court House at Benton in
Mass Convention and
Secret Men.

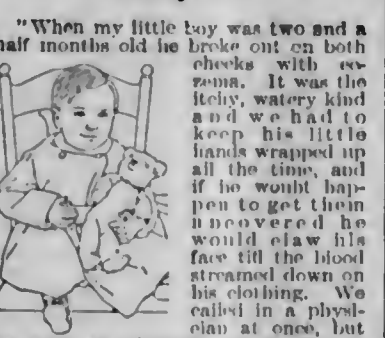

Benton, Ky., July 16.—Republi-
cans of Marshall county met at the
court house and nominated candi-
dates for five of the county offices.
D. H. Ferguson, county chairman,
called the convention to order, and
J. W. Hinstead, of Calvert (Ky), was
elected permanent chairman, and
Garfield Pope, secretary. W. L.
Prince was nominated for county
clerk; H. A. Riley, for circuit clerk;
W. O. Howard, for school superin-
tendent; S. H. Page, for assessor and
H. C. Cornwell, for jailer. No no-
minations were made for county judge,
sheriff, county attorney and surveyor.
Louis Myers was nominated for
Magistrate and J. C. Hicks for const-
able in Benton district 4. W. A.
Tringett for magistrate in district
5. The nominees are a set of splen-
did young men.

BABY'S TERRIBLE WATERY ECZEMA

Itching Humor Broke Out on Tiny
Mite's Cheeks—Would Tear His
Face Till Blood Streamed Down
Unless Hands were Bandaged—
Spent \$50 on Useless Treatments.

CURED BY CUTICURA,
AT COST OF BUT \$1.50

"When my little boy was two and a
half months old he broke out on both
cheeks with eczema. It was the
itchiest, watery kind, and we had to
keep his little hands wrapped up
all the time, for if he would hap-
pen to get them unwrapped he
would scratch his face till the blood
streamed down on his clothing. We
called in a physician and he gave
us an ointment which was so
severe that my babe would scream when
it was put on. We changed doctors and
medicines until we had spent fifty dol-
lars or more and baby was getting
worse. I was so worn out watching
him that I was nearly driven mad. I
bought only a dollar and a half's worth
of the Cuticura Remedies (Cuticura
Soap, Ointment and Pills), and they did
more good than all my doctor's medi-
cines I had tried, and in fact entirely
cured him. I will send you a photo-
graph taken when he was fifteen months
old and you can see his face is perfectly
clear of the last spot or scar of any-
thing. If I ever have this trouble again,
I will never think of doctoring but will
send for the Cuticura Remedies at once.
As it is, I would never think of using
any other than Cuticura Soap for my
babe. You are at liberty to publish
this, it may help some distressed mother
as I was helped. Mrs. W. M. Conner,
Brent Cabins, Pa., Sept. 15, 1908."

GLIDDEN AUTOS HAVE HARD DAYS

TRIP FROM MADISON TO LA-
CROSSE, WISCONSIN.

No Serious Accidents, But Rough
Roads and Steep Hills Were
Cause of Hardships.

PATFINDER IS AN HOUR LATE

LaCrosse, Wis., July 16.—After
the hardest day's ride of the course
thus far, over roads filled with
rocks and heavy with sand, mount-
ing and descending high hills and trav-
ersing marshy coulees, the Glidden
automobile tourists arrived in La-
Crosse in good condition late yester-
day afternoon. No mishap occurred
on the road other than a few peric-
les, and they did not cause serious
delay.

D. A. Lewis, pathfinder, expressed
the opinion that the day's run had
been the worst ever known since the
Glidden tour had been established.
The appearance of the cars and
drivers as they came in corroborated
this opinion. The machines were
enshrouded in clouds of dust, and
many appeared exhausted and stag-
gered as they alighted from their
machines.

Lewis, in his pathfinder car, ar-
rived at 1:45, an hour and a quarter
late, and right at his heels came the
car containing J. C. Glidden, of Hos-
ton, father of the tour, and F. J.
Hower, of Buffalo, chairman of the
American Automobile association
contest board.

No. 109, a Pierce Arrow, driven
by Charles Scofield, was the first
contestant to report, arriving at
3:32.
One minute behind it came No. 9,
a Maxwell, driven by W. F. Win-
chester, while 108, another Pierce
Arrow, in charge of John S. Wil-
liams, was third. The last car was
in at 4:30.

INDORSES PLAN

PROVIDING FOR CONSOLIDATION
OF SCHOOLS.

State Superintendent of Education
Writes Letter to Improvement
League.

In a recent letter to the School
Improvement League, J. G. Cralhe,
state superintendent of education,
sets forth his views on the consolida-
tion of rural schools. He writes:

"I believe that the rural commu-
nities of Kentucky will find a sensible
and profitable solution of their many
perplexing problems in the consolida-
tion of their schools. I conscientiously
believe that it means better classifi-
cation of pupils, better teachers,
more time for recitations, more en-
thusiasm for school work and better
health. It means no tardiness and
no demerit to the minimum of ab-
sences."

"I am convinced that there is noth-
ing too good for boys and girls under
our charge, and I think it is but our
duty to stand for rapid advance in
educational movements when we are
convinced that we are right. We are
investing the boys and girls of today
the manhood and womanhood of to-
morrow. We cannot afford to invest
sparingly when we but consider who
are to be the recipients."

"I have read with interest the
"Committee's Recommendation" to the
Jefferson county board of educa-
tion. This splendid report is gratify-
ing, and I feel sure that I shall have
an opportunity to inspect the work
which shall be done in the school
which is now but in anticipation."

"The enthusiastic work of the
faithful few shall be rewarded. To
you who are the organizers of this
movement, I urge that you do not
cease your efforts, and to those who
are just becoming interested in this
advance step I would say that the
cause is just, the time is ripe, and
that you can make no mistake if you
enter into the work with a determi-
nation that knows no defeat."

"I G. CRALHE,
"State Superintendent of Educa-
tion."—Mayfield Messenger.

BENTON.

The report comes from every part
of the county that crops in all the
low lands are badly damaged by the
overflows. Some crops are almost a
total loss.

Cures Baby's Summer Ills—FREE

The mother should watch her baby very carefully these hot days. If it re-
fuses to play and to eat, if it is peevish and crying, look to the action of its bowels,
for there lies the basis of health. Be careful of its diet. The food and water are
germ laden. The fruit is too often over-ripe or unripe. If it has any indication
of sickness, either in the form of constipation or diarrhea, give it a reliable tonic
laxative like DR. CALDWELL'S SYRUP PEPSIN. This remedy is a stand-
ard in thousands of American homes for just such purposes. It is a favorite with
children because its taste is pleasant, and it never gripes. If the one remedy
best suited to the cure of constipation, indigestion, biliousness, sick headache,
summer complaint, etc. It is equally as good for grown people, and we know thousands who
no longer use strong salts, purgative waters,
tablets, pills and such things, but take the safer, more gentle and pleasant
DR. CALDWELL'S SYRUP PEPSIN. It can be obtained of any druggist at
50 cents or \$1 a large bottle. The entire family can use it, and as these ailments
arise suddenly the head of the house should see to it that a bottle of DR.
CALDWELL'S SYRUP PEPSIN is always at hand.

Those who have never yet used DR. CALDWELL'S SYRUP PEPSIN and would
like to make a test of it before buying in the regular way of their druggist, can ob-
tain a FREE SAMPLE BOTTLE either for themselves or any member of their family
by sending name and address to the doctor. The sample will be sent to your home
free of charge. In this way you can find out what it will do without cost. Also, if
the case presents difficulties that doctors and other remedies seem unable to over-
come, write a letter to Dr. Caldwell explaining how the person suffers and he will
send you the best MEDICAL ADVICE based on half a century of experience in
stomach, liver and bowel diseases, without charge. Women who have children
should send for "PARENTS' GUIDE TO NUTRITION," containing the doctor's
advice on diet, hygiene, etc., in but a week—a very important subject. The address is
Dr. W. B. Caldwell, 507 Caldwell Bldg., Monticello, Ill.

WHAT YOU GET FOR ONE DOLLAR

A Gold Frame Perfectly Fitted to Your Face, Any Style You Desire, Reading or Distance Glasses That Will Serve You For Years; Protection and Rest for Tired, Strained Eyes, Freedom from Headache and Eye Pains That Come From Defective Vision, the Satisfaction That You Have Gotten All This and Saved a Nice Sum of Money.

Such a Startling Announcement, No Doubt, Makes You Ask How We Do It

The story, in a nut shell, is this: A New York manufacturer had too many of certain lines of Glasses on hand, and wanted to reduce his stock quickly. Knowing our ability to use quantities of Optical Goods, he made us such a tempting offer to take the entire lot that we couldn't pass it by. There were 250 dozen, all told, embracing all kinds of Glasses, including rimmed and rimless, Eye Glasses or Spectacles, with or without rims—every style to fit all, and frames to fit every face. We have decided to sacrifice all profit and offer these regular \$3.50 and \$5.00 Gold Glasses, carefully fitted to the eyes, at the unheard of low price of one dollar.

Do Not Be Disappointed if You Cannot Be Waited Upon the Day You Call, Call Again

We make this sensational offer in order to show our appreciation of the support the people have given us in enabling us to build up a splendid business in the past years. The Glasses are the same as we sell in our regular lines, and we will use just as much care in fitting them to your eyes as though you were to pay full price. When you come to inspect them we want you to look for regular \$3.50 and \$5.00 Glasses, for that is the kind you will find them to be. In order to serve all promptly during this wonderful sale we have secured the services of four expert opticians, and every customer will thus get a scientific examination of their eyes, and the Glass properly adjusted. Remember, the sale will not begin until Tuesday, July 20, and will last only one week.

OUR GUARANTEE GOES WITH EVERY PAIR.

One Week, Beginning Tuesday, July 20

We will sell regular \$3.50 and \$5.00 Gold Spectacles and
Eye Glasses, with Lenses.

FOR \$1.00

A careful examination of your eyes will be made, the Glasses perfectly adjusted by a practical educated optometrist or refractonist, as your case may require. You may be sure the Glasses will be correct in every way, even though they were bought at ridiculously low price of \$1.00, including examination.

SAYS THAT THAW THREATENED HER

DAMAGING TESTIMONY AGAINST HARRY FROM EVELYN.

Said He Would Kill Her When He Got Out of Mattewan—Says He Tried Twice to Kill White.

COMPLAINS OF ALLOWANCE

White Plains, N. Y., July 16.—Mrs. Evelyn Nesbit Thaw went on the stand here in the case of her husband and gave damaging testimony against him. It was the strongest point scored by the state so far in its fight to keep Thaw in the asylum for the criminal insane at Mattewan. He demands his release through habeas corpus procedure on the ground that he is a sane man.

Mrs. Thaw was asked if her husband threatened her life. She turned appealingly to Justice Mills. She begged to be allowed not to answer because she said she knew she would incur his everlasting animosity; and her attitude indicated that she believed he might carry out his alleged threat.

She also urged, with some show of feeling, that she was still Thaw's wife, and no matter how he had treated her, she did not want to testify against him. But the court rules that the only possible grounds upon which she possibly decline to answer was that it would tend to incriminate her, and he added that he did not see how it would be applicable to her situation.

Then Evelyn answered the question. "Yes, he did," she said in a low voice.

"What were his exact words?" demanded Mr. Clarke.

"He said 'when I get out of here I suppose I will have to kill you.'"

"Why did he say that?"

"We were discussing his mental condition. I asked him what he meant, and he said: 'You know I was not crazy the night I shot White.' I asked him again and he said, 'You know I missed White by two minutes the day before.'"

Thaw, when asked about his wife's testimony after court, said he wasn't surprised at her attitude but he emphatically denied that he ever threatened her life. He also denied that he attempted White's life the day before the homicide.

Mrs. Thaw said that if the Thaw family had treated her right she would not have testified against her husband; that they would not guarantee an allowance. She complained that her allowance had been cut down to \$70 a week and \$200 a month and added that as she expected nothing from her husband's family she would have to make a living some way, probably by posing as a model.

HUNT RUIZ WEALTH

FORMER MISSOURI GIRL SAID TO HAVE LEFT FORTUNE.

Wonderful Wardrobe of Woman Missing—Former Secretary Living in Ease.

New York, July 16.—A cablegram to the American from London says that it developed there yesterday that the fortune left by Mrs. Agnes Ruiz, the American woman friend of a well-known American millionaire, who committed suicide recently in that city, was much more valuable than at first supposed. In addition to the jewels and gowns, valued at many thousands of dollars, Mrs. Ruiz possessed at the time of her arrival in London \$130,000 in cash.

At least Frank O'Brien of St. Louis, a brother of Mrs. Ruiz has informed his London attorneys that Antonio Ruiz, father-in-law of the suicide, gave her that amount of money, and that she transferred the entire sum to her London account.

No Trace of Wealth.

Yet since the day Mrs. Ruiz, despondent and desperate supposedly because she had been jilted by her millionaire admirer, destroyed herself with a revolver, no trace of these jewels, no trace of this money, no trace of her wonderful wardrobe has been found.

It was learned that Miss Katherine Caney, who had been a sort of secretary or confidential maid to Mrs.

Ruiz, is living in great comfort in London. It is understood that \$20,000 cash was set aside for her provided she remained there instead of returning to America.

"Miss Caney," says one who is in a position to speak with accuracy, "has been provided with a magnificent home and every luxury that she may be content there and not yearn for America. Should she return to America, discontented, she might, it is thought, tell things which would create a hurry."

MRS. PHIPPS

JUSTICE GRAVES FREES HER WHEN SHE GIVES EVIDENCE.

She is the Only Witness Introduced by the Defense in the Hearing.

Lexington, Ky., July 16.—Mrs. Katherine Phipps was dismissed of the charges of acid throwing made against her by Miss Mary Ryan. Mrs. Phipps was the only witness introduced by the defense and at the conclusion of her testimony Justice Graves promptly dismissed the accused. Spectators in the courtroom loudly applauded the judgment of the court.
